PORTFOLIO
https://kidkatie2.github.io/portfolio/

Senior UX designer with **8+ years** shaping AI products, design systems, and complex B2B and SaaS workflows, taking work from user research through high-fidelity React prototypes and production front-end code.

EDUCATION & SKILLS

UT Arlington, 2017 — Bachelor of Fine Arts in Visual Communication Design

Skills & Tools — Figma, Storybook, HTML/CSS, React prototyping, frontend deploying, design systems, InDesign, iOS/Android, user research

Certifications

May 2024 — AI Product Design Course with Robert Redmond (IBM)

Apr. 2024 — AI for Designers, Interaction Design Foundation with Ioana Teleanu

EXPERIENCE

Senior UX Designer
State Affairs
Oct. 2024 - Present

- **AI Scheduled Tasks:** Led end-to-end UX for Scheduled Tasks in AI Chat, letting government affairs users run any request on a recurring schedule, designing create, run, manage, error, and approval flows, a dedicated history-panel section, and developer-ready handoff.
- **AI Document Generation:** Led design of AI Chat's document and report generation (PDF, Word, PPT, inline widgets), defining the style guides, tuning rules, and research-grounded report templates the AI follows, and auditing customer outputs in PostHog to drive fixes.
- **Prototyping & Front-End Contribution:** Established an HTML and React prototyping workflow for high-fidelity interactive testing, replacing static specs for complex interaction problems; routinely **commit code to the product's front end**.
- **Conversational Memory UX:** Owned end-to-end design of AI Chat's memory capability (in-thread indicators, a management view, and edit/delete controls), **eliminating the need for users to restate business objectives** in every chat.
- **Sponsored Content Product Design:** Led reader-facing design for Perspectives, a sponsored content product enabling sponsors to publish position-driven articles on issue topics; first Perspectives placement sold for **$60,000**. Subsequent sales included one placement to **Kalshi for $100,000** and four to **Meta for $400,000**.
- **Early-Stage Growth Impact:** Joined at Series A and contributed to design maturity that supported the company's successful Series B raise, growing **valuation from $5M to $25M**.
- **Design System Governance & Adoption:** Established scalable design system processes and governance models, documented in Figma and Storybook, driving higher adoption and design–engineering alignment.
- **UI/UX Cohesion & Standardization:** Led extensive clean-up and unification of components, interactions, and workflows across web, mobile, and responsive experiences, improving consistency, usability, and maintainability while reducing design and development debt.
- **Acquisition Integration:** Redesigned core product areas to absorb features from acquired platforms, balancing legacy user expectations with a cohesive product experience.
- **Complex Feature Ownership:** Designed end-to-end commenting system originating in 360 Views, the platform's executive-facing overview feature, now scoping to an MVP rollout across the full product, including data model evaluation in collaboration with engineering.
- **Executive-Facing Product Design:** Redesigned 360 Views for a primary executive audience, solving for "what changed and what matters" over exhaustive data display.

Principal Designer
DEAD! & Anubis Publications
Freelance, Present

- **Anubis Law:** Designed a state law exam prep web app with video lessons that pause for checkpoint questions and a projected exam score measured against the pass mark; now in development.
- Redesigned existing testing website with new branding, updated UI, improved UX features, and in compliance with **ADA guidelines**.
- Newest feature adds include:
  - Gradebook for instructors
  - Matching game
  - Flashcards
- Designed a new experience for the website where students can study by playing a game of trivia (Jeopardy!). This experience was designed first for **desktop and then for mobile native**. This experience included the updated branding
- Redesigned the logo and branding for the company, including fresh marketing materials, guidelines, and digital assets

Senior UX/UI Designer
Zeal IT Consultants
Jul. 2022 - Oct. 2024

- **Client List:** McKesson Corporation, Supplylogix, Lennar Homes, Archer Systems, Bankers Financial Group, Movement Financial.
- **Mentorship & Leadership:** Provided expert guidance to new designers in UX principles and Figma, fostering skill development and a culture of continuous improvement.
- **Educational Initiatives in UI/UX Design:** Established the Center of Excellence (COE), leading discussions on UX Maturity and Accessibility through presentations and guest speakers. Created **Design Camp, a 14-week internal UX course** for developers and product owners, developing curriculum and leading sessions.
- **Design Sprints & Workshops:** Led multiple design sprints, managing workshops, prototype design, and research interviews, **securing funded software development projects**.
- **UX Research Expertise:** Conducted user interviews, surveys, and usability tests to gather insights that directly shaped design decisions and improved product functionality.

EXPERIENCE CONTINUED

Senior UX Designer (Freelance)
ARCHER Systems
Oct. 2024 - Oct. 2025

- **Design System Modernization:** Led the refinement of an existing design system, updating components, interaction patterns, and scalability to ensure consistency across platforms.
- **B2B Product Expansion:** Designed and integrated new client portal experiences, enabling seamless navigation and expanding functionality within an established product ecosystem.
- **AI Experience in UX Design:** Developed an **AI-powered chat experience**, incorporating machine learning-driven interactions to enhance efficiency and streamline user workflows.
- **Communication & Collaboration Platforms:** Designed a centralized Communications Center, improving user engagement and information management within the legal software environment.
- **Software Design Leadership:** Executed high-impact UX/UI enhancements across multiple legal software solutions, optimizing usability, accessibility, and overall design cohesion.
- **Cross-Functional Collaboration:** Worked closely with product teams, developers, and stakeholders to align business goals with user needs, ensuring strategic execution of product updates.

Senior UX/UI Designer
Capital One Enterprises
Feb. 2021 - Jul. 2022

- **UI/UX Design and Innovation:** Enhanced the design and functionality of a SaaS product in the auto-financing sector, transitioning it from a single-task system to a comprehensive **multi-lender SaaS product and CRM**. Focused on creating interfaces for MVP and scalable future states
- **User Research Leadership:** Led multiple user research initiatives, from drafting discussion guides to conducting in-depth empathy interviews and synthesizing data. These efforts provided critical insights that informed strategic decisions and were communicated effectively to cross-functional teams
- **Strategic Development:** Directed the strategic overhaul of B2B software to expand its capabilities, including spearheading the transition to a multi-lender platform and initiating the software's evolution into a SaaS model

CEO & Principal Designer
Chit Chat Cards
Aug. 2020 - 2022
Personal Startup

- Designed UI and UX for a card-style app, including MVP and planning features for the next major updates
- Worked with development team to implement to the App Store and Google Play store **within 6 weeks** of final designs
- Created branding and identity guidelines

Web UX/UI Designer
Nimbly Technologies
Jul. 2020 - Aug. 2020
Freelance Work

- Designed a web-facing onboarding experience for new clients of Nimbly to be guided through the web-based Operational Audit Software (SaaS)
- Helped Nimbly become closer to their long-term goal of being fully self-serviced by creating the beginning portion of their "End to End" self-service experience
- Relieved the customer service team from onboarding responsibilities and assistance calls **by up to 46%**

UX/UI Designer
USAA
Apr. 2019 - Feb. 2021

- **Native Mobile & Web:** Led UI/UX design and testing for Android and iOS apps and responsive web, taking a major product launch from **concept to soft launch in four months**.
- **User Research:** Ran research and usability testing that shaped UX decisions across multiple apps; contributed to a major study on COVID-19's impact on small business owners and **presented findings to senior leaders**.
- **Design Language System:** Built Android and iOS components that integrated with web components within brand standards, with implementation guidance for engineering.
- **Design Sprints & Agile Delivery:** Facilitated sprints to improve insurance quote customization and management, working closely with development teams in agile cycles.

Web UX Designer
Rug Doctor
Jun. 2018 - Apr. 2019

- **Design & Branding:** Created web and mobile mockups for secondary sites, new product logos, and marketing across print and social: posters, brochures, and Facebook and Instagram ads.
- **Print & Media Production:** Owned InDesign print prep for manuals, forms, and guides; **saved the company over $150,000** by bringing product photography and video production in-house.
- **Project Management:** Ran up to seven concurrent projects on tight deadlines with marketing, IT, legal, and operations, spanning packaging, print, web, brand identity, and video.

Graphic Designer
3Di Sign + Design
Jul. 2017 - Dec. 2017

- Developed numerous marketing programs (logos, brochures, newsletters, infographics, presentations, and advertisements) and guaranteed that they exceeded the expectations of our clients
- Managed **up to 8 projects** or tasks at a given time while under pressure to meet weekly deadlines
